ELECTRONIC CASH REGISTER

DESIGNED SPECIFICALLY FOR RETAIL BUSINESSES!

CASIO TE 1500 ELECTRONIC CASH REGISTER

RETAIL SOLUTION

**SPECIAL
OFFER!**

United Bank Card has partnered with Casio to introduce the first electronic cash register with integrated credit card processing. This exclusive technology now delivers the ultimate payment solution and its yours free of charge.

This stylish and functional cash register was designed specifically for the retail environment. Thirty department keys can be customized to meet your particular operational needs. Each key can be customized through a simple and easy to use online wizard, allowing you to know the exact specifications of your register before it ever reaches your doorstep. This electronic cash register is the ideal solution for nearly all retail businesses and comes complete with cash drawer and backlit customer display.

Integrated Payment Processing

Each electronic cash register comes complete with a secure (PCI PED*) integrated payment terminal to enable fast and user friendly payment options. This secure device supports dial-up or ethernet connectivity and its sleek, compact design fits easily in the palm of your hand. With a wide array of convenient features, it is the perfect device to streamline your electronic payment system.

Enjoy all the functionality of an electronic cash register with integrated credit card processing at no cost! Contact your sales representative today for more information.
